

Aleinu

Welcome to the "Aleinu" greenhouse. The unique high-technology Israeli agricultural plant is settled on the roof in a gorgeous location, in the Northern Judean Desert near Jerusalem and abounds with the beautiful panorama of the countryside. Your visit to the greenhouse is accompanied by a professional lecture on the advanced technologies of agricultural production in Israel. The visit to the greenhouse includes the degustation of the fresh-grown greens, the possibility of acquiring the greenhouse production, which includes even the natural medical herbs. Nevertheless, the special thing about "Aleinu" is that it is not only a usual high-tech Israeli greenhouse; it is the manufacturer of new urban industrial agricultural technologies. Greenhouse "Aleinu" is trying to present the Israeli society the completely new conception of the possible future for humanity. "Aleinu" strongly claim their principles on the issues of environment protection, and for this reason, one of the main objectives of "Aleinu's" work is to promote the Ecological Urban Agriculture movement. You may ask, "How can this help stop the greenhouse effect"?
Go find out in the "Aleinu" greenhouse
